EDITORIAL

Regretfully the last two trials have been cancelled due to the extended winter weather, unfortunately it is unlikely that they will be re-scheduled as future weekends are congested with existing events. But if you'd like to give a hand marking out at the Roger Birch trial pop down to Bromley Brook on Saturday the 6th April (not before.) Give Brian Fletcher a ring on 01206250983 if you want more information.

You may have noticed that the forthcoming Snaque Pit trial has changed from an ACU restricted EFA trial to an 'open' AMCA ACTC trial. This is so that we can accept entries from twin shocks, a class which had been denied to us for this particular event under the Eastern Centre ACU and as such would have severely restricted the entry to this trial, hence the decision to change. This type of situation was the prime reason why the EFA decided to set up its sister club the Anglia Classic Trials Club so that we can continue to offer a comprehensive calendar of events for the everyday classic trials enthusiasts. Fingers crossed spring would have sprung by then and we are blessed with some decent weather to take advantage of.

I have recently come to realise not all motorcycle sport is born the same as I found out when I came across some speedway on the telly. It's not an unknown form of motorcycle sport to me but it's one of those which really only attracts the existing fan to events and is rarely accessible on telly. I couldn't believe what I was seeing! To such an extent I ended up watching it until the final just to see if;

- there's any overtaking
- the order at the first corner (and there's only one corner, not four, unless they've discovered a new form of geometry) is always the same as at the chequered flag and
- lane starting position determines final finishing position.

From what I saw over twenty odd heats they might as well as ridden to the starting line, revved up the engines a bit for the fans, raised the tape and waved the chequered flag all at the same time, then once in a while disqualified a rider just for the hell of it! And they say F1 is dull. Speedway must have been a very different beast in it's heyday during the middle of the last century.

Talking of F1 what a farce that showed itself to be at the last race at "KL." Everybody seems to be jumping on Vettels back for his overtaking move against Webber but at least he went out there to race the whole 56 laps. If it had gone the way of those interfering team orders the first four would just have been an organised procession for the last third of the race and in my book that's not racing.

Have a good 'un.

PEDRO'S PATTER

The scramble season opener had a lot of good fortune great weather on the day March 3rd the going couldn't have been better (if one's machinery was fast enough) Glen Davey's twin port CZ certainly was 4-1st's in his class whilst Nick Archer (BSA) and Greg Radley (Starmaker Mettise) provided the excitement behind, Nick 2-2-3-4th very very impressive. Well worth the admission fee!! Good to see veteran campaigner Jim Aim commencing yet another season, in style as always 4 rides 4 wins like a train! The chairs twelve in number were competitive ex-GP man Shaun Mallows gave them a start then had to turn up the wick somewhat to get to the front one race red flagged resulting in overnight hospital stay for a passenger. A well run meeting shame insufficient programmes. You'll not need to be told about weather cancellations, Wrabness was laid out week previous then the weather dictated it wasn't a viable option thanks to Chris Byford-Smith, David Ling, Colin Rose, Kevin Davie & Mick Brown the workers and the various bodies who dismantled on the morning. With the suggestion from weather boffins this could be winter weather of the future maybe we should resort to 'virtual' trials and or the observers stay at home and observe via CCTV. That'll suit Neil Canham! I spied a report in a 'glossie of national down West where several of our 'regulars' turned in good rides, maybe they should go a step further and assist our editor Chris out providing a report or two, you'd miss it if the T&T didn't appear monthly! Despite the 'lost' month tweaking is still being practiced old components 30-40 year old electrics cause considerable head scratching this is when club room communication comes into its own yackerdeyak!!! I hear observations of the difference in performance between 2 of same models it's always been since Jobe was a lad!

DON'T LOOK BACK IN ANGER

Reading Mick Browns rant in last months T & T and listening to Ted at the recent AGM has prompted me to put pen to paper. A shortage of observers and the same people turning up to lay out a trial, will, in the end only result in one thing, another passing of a British institution.

There are, I am reliably informed, one hundred and sixty members in our club, so why is it that the vast majority are idle? Why did they join? Why do they continue to rejoin? I realise, that out of a hundred and sixty members they are not all riders, but the Sunday league football supporters, referees, linesmen and organisers aren't all players.

Every rider who enters a trial is only able to because people have given up or made time in order for them to do so, its almost to the point of embarrassment that, shall we say, ladies of an older generation are asked to stand in a wood for three to four hours in the middle of winter and record with pen and paper a riders skill level.

Before it comes to the point of a riders ballot or rota to perform this task, lets stand back and see who gains from it.

Well firstly its not Mrs Ted, Preedy, Gulliver, or any other and I mean this "Saintly" other "Arf" whilst I'm sure they carry out the task as part of there commitment to their husbands and the club I am sure they would much rather be somewhere warm and dry (like the kitchen.) Also, once or twice a year on a warm spring day for instance, I am sure its quite pleasurable.

So, who else? The older generation? Eaves, Byford-smith, Canham, Daly etc all with an avid interest in bikes and riders abilities but, once again, all in advance years and on health grounds shouldn't be standing about in wintry conditions or indeed, standing for long periods of time.

So, who does this leave? it leaves us, me and you! and if we want to ride, we are once a year, going to have to give up our time and observe or help out.

Its not just us though, other clubs have similar problems. So, lets be the club that introduces or tries a different approach, for example, if you turn up at the layout of a trial, or help organise an event, then you have done your bit and you should not be asked to observe. If you bring someone with you, then same again. However, don't think "oh its alright for him" he brings his dad, so he's got it covered. Well, no, its not alright at all!

I don't want my dad observing, apart from the fact he puts me off, as explained, he is getting on a bit (poor ole bugger.) Fine, he can observe when he wants to, not when necessity requires it.

If you don't bring someone along with you, then ask yourself why? Have you no friends? Are you Billy no mates? Next time you do a favour for someone instead of saying "oh, that's alright, 'ave that on me," ask them what they are doing Sunday?

Personally speaking, I think our club needs to attract more bigger (British) bikes to its trials and by doing so, spectators and interested parties will start to attend events to watch them.

There was, over the day a lot of interest in our stall at the recent Kempton event and a least two people that I spoke to had bikes and lived in Essex, makes you wonder how many more there are. The excellent web site continues to attract visitors and is by far the best marketing tool we have for the club. The essence of the club is to promote Pre 65 trials bikes so, to promote them means to ride them, talk about them, picture them and above all welcome them. What would it take at the next Thumpers to invite riders from other clubs who may come from as far away as Somerset or down from Derby for example and offer to put them up or at least send them the reg's. with a list of local B&B's or local Hostelry's.

The Talmag, Jack Thompson, Poachers etc aren't suffering from lack of numbers or lack of bigger bikes so why are we? The trial itself is more than challenging, incidentally taking more marks then any other I am sure the likes of Hutty, Roger Higgs and Defue would not only promote interest but would attract many other riders on similar machines of which there are many.

What's happened to the rigid class? When I first rode the 500T, there were twelve entries in that class alone! Now there are none. Twelve riders don't just disappear, twelve bikes don't just disappear. There is healthy entries in other trials so why not ours? If we do get some entries, then how about a profile on them (like they do in the Manx) in the T and T or on the web site.

Perhaps a questions and answers interview, so that people can read and understand the interest in them and believe me, the interest is there! As soon as I mention I ride an old AJS in trials whether it be at a race meeting or incidentally down the paint shop people are interested, the first thing I do is direct them to the website.

Four Strokes, Two Strokes, Twin Shocks, Pre 65ers, Chairs and Rigids all have a place in the EFA.

As read from the website a few people with similar interests got together and started a club, that was thirty odd years ago Now there are a hundred and sixty members and if we all do our bit and help out, observe, ride, promote and write and organise then that'll be some club.

Last month the club championship results were published which listed those competing for the club trophies bar a couple of 'small' omissions; the Peter Eaves Trophy for the best twin shock riding the hard route and the Jeff Fincham Trophy for the best Pre-Unit on the 50/50 route at the Snaque Pit trials. Results for which can be found over the page.

Also, due to popular demand, are the results for us lesser mortals

TIM'S TOURS 2013

Proudly presents our curtain raiser for the new season with
The Daw Tour.
This will take place on Saturday 27th April.
Meet at Chairman Ted's "plaice" at 3 o'clock. The route at this time is to be decided but a 'comfort stop' is on the menu.
You have been warned so get the polish out.
From the Management.

LETTER TO A MEN'S HELP LINE

Hi John,

I really need your advice on a serious problem:
I have suspected for some time now that my wife has been cheating on me.
The usual signs; if the phone rings and I answer, the caller hangs up; she goes out with the girls a lot. I try to stay awake to look out for her when she comes home but I usually fall asleep.
Anyway last night about midnight I hid in the shed behind the bike. When she came home she got out of someone's car buttoning her blouse, then she took her panties out of her purse and slipped them on!
It was at that moment crouched behind the bike that I noticed a hairline crack in the carburettor inlet manifold.
Is that something I can weld or do I need to replace the whole manifold?

The ol'man has been missing a week now.
Police said to prepare for the worst.
So I have been to the charity shop to get all his clothes back.

KEEPING TRACK!
